- \_\_\_\_\_ Copy of driver's license.

## PURCHASE OF MOORING EQUIPMENT ONLY

Per the Port San Luis Code of Ordinances Mooring and Water Use Code, Section 16.210(D) – Sale/purchase of existing mooring:

- (1) Effect of sale of mooring upon buyer. The purchase of mooring equipment does not entitle the buyer to a mooring space in the harbor on state tidelands, nor does such a sale convey any mooring seniority to the new owner.
- (2) Buyer must obtain a mooring permit. To obtain a mooring space in the harbor on state tidelands, the new owner must apply for and obtain a mooring permit from the District as set forth in Section 16.210 – Mooring Permit Procedures.
- (3) Mooring Relocation. If there is no waiting list and spaces are available, and following the issuance of a mooring permit, the District will relocate the mooring to a vacant space within a zone of the same category of use and according to the buyer's seniority.
- (4) Removal and storage. If there is a waiting list and no spaces are available, the District may remove and store the mooring at the buyer's expense, until the buyer receives a mooring permit according to his/her position on the mooring waiting list.
